IN OUR FACULTY

B.A. Degrees take four years to complete. Students who have not adequate level of English are given preparatory English classes for a year. This is a privilege considering the number of English preparatory classes in Turkish universities.

Moreover, we provide students exchange programmes for our most successful students. They are given the opportunity of studying in EU member countries. Thus, experiencing a foreign life, diverse culture and professional activities.

Our faculty is a prestigious one both in Turkey and abroad with its successful academics who implement contemporary methods successfully in their fields, publish qualified papers, are busy with academical activities such as symposiums, conferences and seminars.

Our mission is to give educational services compatible with our country's core values and strategic objectives, raise individuals equipped with the universally valid information and skills, produce both nationally and universally available knowledge and technology which will contribute to science and which will be useful to stakeholders, regulate activities that will contribute to the development of members of society in culture, artistic and sports.

Our vision is to be a leading institution both in Turkey and in the world in terms of scientific studies, the production of information and technology, cultural, social, artistic and sporting events; whose graduates are preferred and sought, which has universally qualified students and teaching staff and which educate researching, thinking, suggesting, questioning individuals and which satisfies the needs of its stakeholders with effective and fast solutions.

Our faculty continues to work for the service of society and science in order to train qualified scientists of 21st century.

STUDY ABROAD OPPORTUNITIES (ERASMUS)

Erasmus is the EU's flagship education and training programme, enabling two hundred thousand students to study and work abroad each year, as well as supporting co-operation actions among higher education institutions across Europe. It caters not only for students, but also for professors and business staff who want to teach abroad and for university staff who want to be trained abroad. All our students benefit from Erasmus agreements.

DIPLOMA SUPPLEMENT LABEL

is a document attached to a higher education diploma in order to consolidate the international transparency and provide the academic and professional recognition of qualification. It is designed to provide a description of the nature, level, context, content, and status of the studies that were pursued and successfully completed by the individual named on the original diploma to which the diploma supplement is appended. It also accommodates to local needs.
