ABOUT US

The Department of Educational Sciences was established in the 2010-2011 academic year in order to conduct teaching profession courses for students who want to teach in all departments of the university and for university graduates who want to get a teaching certificate and to cooperate with various institutions on education-related issues.

ABOUT US

The department consists of 3 separate departments: Curriculum and Instruction, Educational Administration Supervision Planning and Economics and Educational Measurement and Evaluation. In the department, there are 1 professor, 2 associate professors, 2 doctoral faculty members and 1 research assistant. 1 faculty member works in the Department of Curriculum and Instruction, 1 faculty member works in the Department of Educational Measurement and Evaluation, and 3 faculty members work in the Department of Educational Administration Supervision Planning and Economics.

MISSION

To train teachers who are committed to Atatürk's principles and revolutions, who are tolerant, fair, who have internalized the culture of democracy, who have professional sensitivity, who are researchers, who can think critically, and who are sensitive to their environment, to conduct basic and applied original scientific research in the fields related to education, teaching and the teaching profession, to focus on the issues needed by the society. It has undertaken the task of offering in-service training programs to institutions, organizing scientific events to enlighten employees in educational institutions, and training qualified school administrators by providing postgraduate education in the department of educational sciences.

VISION

As Karabük University, Faculty of Letters, Department of Educational Sciences, we train qualified teachers needed by the society; To be a department that is set as an example with the teachers it trains as having the qualifications to produce knowledge in fields related to education, teaching and the teaching profession, to use knowledge effectively and widely, to respect human rights and freedoms, to be enterprising, to constantly improve themselves, and to find solutions to problems related to the field with scientific methods.
